ABOUT US

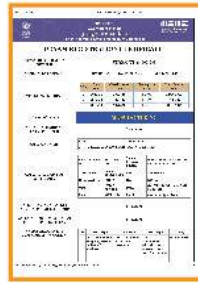

OCTIOT is a leading brand and OEM in sensors and sensor-enabled lighting solutions, at the forefront of the future of sensors and intelligent lighting since 2017. We have been specializing in energy-efficient lighting products and solutions that support all types of industries and residents to convert their buildings into energy-efficient ones.

Our focus on sensor-based products has led to significant reductions in energy usage, resulting in the reduction of CO2 emissions and better savings on electricity bills as a result. We are committed to supporting our clients in their drive towards decarbonization and net-zero carbon emission.

At OCTIOT, We believe that sustainability is not just a goal but a responsibility. By leveraging the power of sensors and intelligent lighting, we are working towards a brighter & more sustainable future for everyone.

OUR MISSION

To Aware Everyone
On Earth To **Save Energy**
