Set-up timers for devices
Set timers on any device, from light bulbs to water pumps.

Comfort and Convenience
Switch on/off appliances anytime from anywhere. No more worries about hassles at home.

Custom Scenes
Set custom light settings then turn on with a single tap to suit different moods - like movie night, party scene

Smart Entertainment
Control all IR remotes with just the smartphone. Give a smart makeover to your DTH TV with new capabilities.

Tighter Security
Monitor your home on the go. Set virtual locks on every room that'll smartly notify about any intrusion.

Better Living
Concentrate on your work more than worrying about hassles at home.

Control from anywhere
Control all appliances in your home from anywhere in the world

Voice Skills
Your home's new best friend Alexa, Google Assistant or Siri, use your voice as a remote to control all your appliances.

Live Power Tracking
Monitor hourly and daily power consumption at home in real time to save more power.

More Intelligence
Let your appliances customize their actions, without you having to play with the remotes all the time.

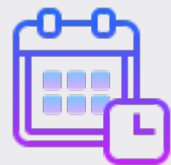

MOBILE APPLICATIONS

Seamless User Experience
The app easily switches between home, switches and remote tabs to enable an effortless user experience.

Create auto-turn off timers
Set timers on your appliances so they only work for the required duration.

Set Schedules & Routines
Set your appliances to power on/off at preset timings, create routines for a set of appliances so they can operate in sync without manual operation.

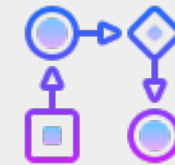

Lock Room Capability
This feature lets the user lock any room in the house via the app, so that he'll be notified of any intrusion immediately.

Scenes
Customize your appliances to create theme based scenes for you whenever you want them to.
Ex: evening scene, birthday scene etc.

Power Tracking Tab
The power tracking tab on the home dashboards displays your hourly and daily power consumption in real time.

Workflows
Let your appliances make intelligent decisions based on their surroundings.
E.g. Your AC automatically switches on when the room temperature reaches 35 degree Celsius.

Entertainment Guide
Access your TV guide in the app. Set favorites, reminders & stream links on your favorite channels.

Share your home access
Share your smart home app access with all other members of your home

Remotes
Use your app as a substitute remote for all your physical IR remotes. Create custom remotes and default remotes
